CASA MISSION

To create a community and be an informational "home" of Latin America figure skating coaches... in other words... **integrating information to enhance our experiences in a positive figure skating environment.**

CASA will strive to create collaborative assistance and a pathway for those who need various resources and information in our Olympic discipline.

HOWEVER...

WE NEED YOU!

There are multiple opportunities for not only **how coaches can share ideas for growth and shape the promotion of our sport** but also **create opportunities for partnering in education and skill building.**

We consider this to be a pioneering opportunity, and we need **as many coaches "voices" as possible !**

Your **participation and sharing with your LATAM Colleagues will make it possible** for a progressive and successful figure skating community in Latin America.

Membership is absolutely free !

CASA wants to build a database for all coaching colleagues for LATAM, so please sign up and spread the word !
